RHA® topical skin booster

THE FIRST RHA TOPICAL FILLER

Sterile Gel _ 4x4ml

The microneedling roller shown in the picture is a Class III Medical Device and is not included in the skincare range. RHA® topical skin booster is a cosmetic product according to European Regulation 1223/2009. It is recommended to complement professional procedures. Cosmetic products are not designed to be injected.

Today, patients expect instant results, with minimal down time after an aesthetic treatment. With its unprecedented concentration of cross-linked hyaluronic acid, the RHA® topical skin booster is groundbreaking, performing as a gliding gel, reinforcing the natural skin barrier and maintaining hydration. With this cosmetic product, the patient's skin quality is assured⁽¹⁾. A winning solution for physicians and patients alike!

TEOXANE Laboratories offer an innovative and effective skincare solution: the RHA® topical skin booster.

This pioneering, sterile, cross-linked Hyaluronic Acid (RHA®) - based product is designed specifically for professionals to instantly enhance aesthetic procedure results. With a high concentration of RHA®, the product protects, aids and improves recovery whilst maintaining rejuvenated skin quality.⁽¹⁾

RHA® topical skin booster: the professional skin quality solution

- ❖ Pack of 4 vials with sterile pipettes.
4 ml aqueous preservative-free sterile gel: the perfect dose advised for full face, neck and décolleté treatments
- ❖ Recommended to complement professional procedures (peeling, laser treatment, microneedling after procedure...)
- ❖ Acts as a boosting gliding gel and as a film forming and protective mesh.

Caution: Do not inject – For external use only
– For professional use – Single use

SKIN QUALITY

REPAIR

- Instant reduction of discomfort
- Excellent hydration to aid recovery
- Soothing and fresh sensation on the skin

A MICRO
DROP IS
ALL YOU
NEED

A UNIQUE FORMULA TO ENHANCE SKIN QUALITY AND REJUVENATION

4 highly concentrated ingredients, specific to 4 key skin functions⁽³⁾:

PROTECTION

12.5% RHA **resilient hyaluronic acid®**

TEOXANE PATENTED TECHNOLOGY

Enhances fast recovery & long lasting hydration thanks to the formation of a «second skin», protective film.

NUTRITION

Boosted DRC

A NEW FORMULA,

100 X MORE CONCENTRATED

Nourishes and revitalizes the skin, adding instant radiance with its meticulously selected cocktail of amino acids, antioxidants, vitamins and minerals.

HYDRATION

Free Hyaluronic acid

OBTAINED BY A
BIOTECHNOLOGICAL PROCESS

Reinforces and regenerates the skin barrier. Improves hydration for fuller, plumper skin.

RENEWAL

Methylglucoside Phosphate

A SOURCE OF ENERGY
FOR THE SKIN

Improves skin density and elasticity. Increases the synthesis of Collagens I & III and elastin production. Enhances skin firmness.

❖ **0% preservative** ❖

BENEFITS (1.2.5.7)

REJUVENATE

- Visibly firmer and more elastic skin
- Enhancement of pumping effect
- Visible improvement to skin quality

IN VIVO STUDY

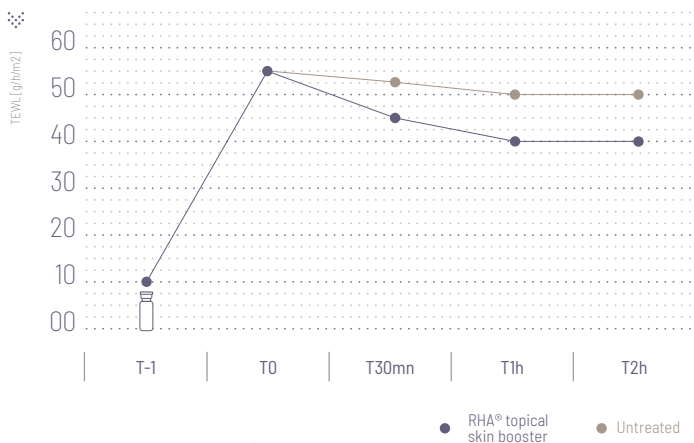

on irritated skin

Skin irritation test ⁽⁴⁾

The product is NON IRRITATING and WELL TOLERATED.

Trans Epidermal Water Loss ⁽²⁾

Faster restoration of the skin barrier function only 30 minutes post-application.

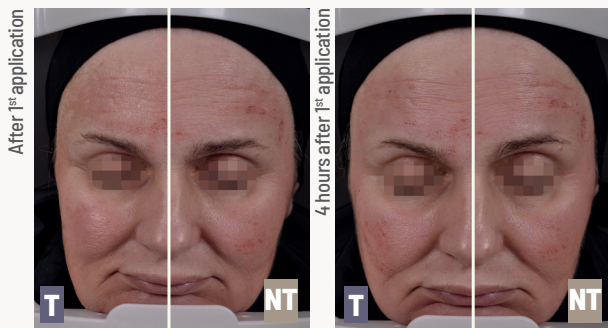

17.6% decrease in water loss after 1 hour of RHA® topical skin booster application compared to the untreated zone.

The skin is able to retain hydration and the skin barrier is therefore reinforced.

VISIBLE, MEASURED RESULTS AFTER AN AESTHETIC PROCEDURE ⁽⁵⁾

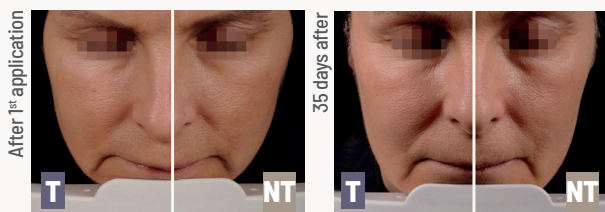

An immediate reduction of rednesses

Redness score quickly and significantly decreased.

A long-term skin quality enhancement

T With RHA® topical skin booster

NT Without RHA® topical skin booster

Skin radiance, appearance and texture significantly enhanced.

PATIENTS' POSITIVE FEEDBACK:

Most patients agreed that RHA® topical skin booster has:

AN IMMEDIATE ACTION AFTER THE FIRST APPLICATION ⁽⁵⁾

93%

Immediate tightening effect

84%

Different quality of the skin

75%

Immediate freshness & soothing effect

A LONG-TERM EFFECTIVENESS ⁽⁶⁾

92%

Firmer skin

91%

Visibly transformed radiance of the skin

72%

Improved & maintained the procedure results

FAQ

When can physicians use the product?

- ❖ RHA® topical skin booster has been specifically formulated for professional use. It complements any aesthetic procedures which may cause skin irritation (chemical skin peels, laser resurfacing, microneedling,...).

The product is sterile, with no preservative and has been judged non irritating on sensitized skin. This comfortable gel creates a film-forming and protective mesh that helps restore the skin barrier for a visible hydrating and lifting result.^(1, 4) It provides protective and rejuvenated skin benefits for patients in the short and the long term.

Why combine RHA® with free HA (Hyaluronic acid)?

- ❖ **The combination of both has the power to :**
 - > Strengthen the skin barrier for a better water retention.
 - > Reinforce skin cohesion and prevent TEWL (TransEpidermal Water Loss) on epidermis ^(2,4).

What is the minimum recommended amount needed after a professional procedure?

- ❖ 4 ml for a face, neck and décolleté application.
Otherwise 2ml is sufficient. The sterile vial is for a single use.

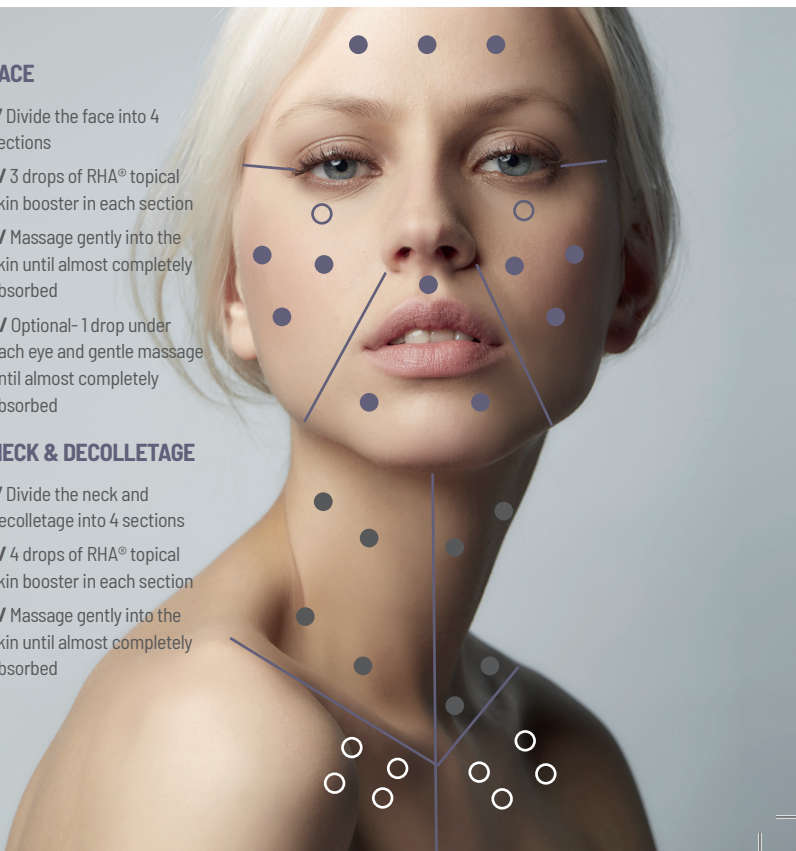

What is the protocol to use RHA® topical skin booster?

FACE

- 1/ Divide the face into 4 sections
- 2/ 3 drops of RHA® topical skin booster in each section
- 3/ Massage gently into the skin until almost completely absorbed
- 4/ Optional- 1 drop under each eye and gentle massage until almost completely absorbed

NECK & DECOLLETAGE

- 1/ Divide the neck and décolletage into 4 sections
- 2/ 4 drops of RHA® topical skin booster in each section
- 3/ Massage gently into the skin until almost completely absorbed

DOCTORS TESTIMONIES

After a procedure it is extremely helpful in reducing redness and discomfort. Patients experience a faster recovery and a wonderful lifting sensation. The anti-radical action of the vial reduces inflammation.

MD, GRADUATED IN MEDECINE, AESTHETIC MEDECINE AND SURGERY, ITALY

It has a wonderful ability to increase the skin tone and the luminosity of a dull complexion improving skin texture, softness and radiance.

MD, BOARD CERTIFIED DERMATOLOGIST SPECIALIZING IN COSMETIC SURGERY,

PATIENTS TESTIMONIES⁽¹⁾

" Much softer skin, with a «peach skin effect». Nice texture. "

Karine - 45 years

" I feel like I have the skin of my 20s'. Excellent product. "

Clemence - 38 years

" It had dried, I immediately felt its toning effect "

Ambre - 57 years

" Nice to apply. Refreshing effect when applied. "

Sophie - 65 years

" You can instantly feel a tightening sensation on your face. "

Swany - 44 years

In today's world, patient beauty and skin care increasingly demand effective and readily accessible solutions. Ever mindful of the physician's needs and the aesthetic expectations of the patient, we have formulated a new effective cosmeceutical solution: the RHA® topical skin booster. More than a classic cosmeceutic, this groundbreaking hybrid product is the perfect response to skin sensitized by an aesthetic procedure. Thanks to the first RHA to be applied topically, we provide a high-tech solution for doctors to enhance the quality of the patients' skin.
