INNO-TDS®

Transdermal Delivery System

INNO-TDS formulations are susceptible, according to the decision of the professional, to be used for different transdermal delivery techniques which exist in the market as non-invasive therapies. They allow different active ingredients to penetrate the corneous layer of the skin reaching the deeper layers. These ingredients are released without damaging the skin in the desired treatment area, with no side effects, rapid actions and results.

The purity of the formulations used in TDS is a basic rule to prevent unwanted ion concentrations therein, so that it is advisable to avoid the use of preservatives.

INNO-TDS

REDOX

Oxidative balance treatment

Neutralizes excess of free radicals produced in our body and helps maintain oxidative balance, attenuating the visible signs of photodamage.

PROFESSIONAL USE

INNO-TDS

TIGF

Growth factors stimulation

Promotes the synthesis of growth factors and proper disposal of the extracellular matrix restoring skin vitality, keeping its elastic consistency.

PROFESSIONAL USE

INNO-TDS

FILL UP

Rejuvenation treatment

Combines the activity of a powerful hydrating agent giving to the stratum corneum hydration and elasticity with a great antioxidant.

PROFESSIONAL USE

INNO-TDS

MATRIX

Extreme revitalization treatment

Stimulates the revitalization of the extracellular matrix providing volume and hydration to the skin. It minimizes the depth of wrinkles.

PROFESSIONAL USE

INNO-TDS

HYALURONIC ACID

Revitalizer treatment

Acts in the synthesis of cell elements such as the neutralization of oxidizing processes, providing a bio-revitalizing effect.

PROFESSIONAL USE

INNO-TDS

RESTRUCTURER

Restructuring treatment

Stimulates fibroblast activity, preventing the disorganization of connective tissue and enhancing skin tone and elasticity.

PROFESSIONAL USE

INNO-TDS

VITAMIN COMPLEX

Skin and hair healing treatment

Supplements vitamin deficiencies fighting against ageing, stretch marks, hair loss and for other conditions, providing vitamins, minerals and aminoacids.

PROFESSIONAL USE

INNO-TDS

FIRMING

Firming treatment

Stimulates dermal collagen production, causing retraction of the collagen fibers and producing a tightening effect.

PROFESSIONAL USE

INNO-TDS

AGE CONTROL

Antiageing and hydrating treatment

Stimulates cell renewal. Provides a barrier effect to the skin, preventing water loss and keeping a high hydration.

PROFESSIONAL USE

INNO-TDS

HAIR LOSS CONTROL

Anti hair loss & hair growth treatment

Stimulates the hair growth cycle, increasing its thickness and providing a suitable nutrient supplement to the hair follicle.

PROFESSIONAL USE

INNO-TDS

DRAINING PPC

Localized adiposity treatment

The purified lecithin, based in phosphatidylcholine, eliminates the fat deposits by increasing the permeability of the adipocyte membrane.

PROFESSIONAL USE

INNO-TDS

DRAINER

Draining and venotonic treatment

Solution for the treatment of hydrolipodystrophies acting against water retention with a draining and venotonic effect.

PROFESSIONAL USE

INNO-TDS

SLIMMING

Lypolitic treatment

Combination of lipo-active ingredients which act against the hydrolipodystrophies on the mobilization of free fatty acids, helping in the metabolization.

PROFESSIONAL USE

INNO-TDS

TRACER

Lipolysis treatment

Acts in the synthesis of numerous cell elements and metabolic process. Antioxidant capacity, it increases AMPc for lipolytic treatments.

PROFESSIONAL USE

INNO-TDS

HYALURONIDASE 1500

Diffusing treatment

Helps to reabsorb the accumulation of hyaluronic acid and it is a powerful diffusing agent in cellulite treatments.

PROFESSIONAL USE

INNO-TDS

VIT C

Anti oxidant treatment

Increases skin strength and elasticity, making it firmer and providing it with luminosity which gives it a younger appearance.

PROFESSIONAL USE

INNO-TDS

CARNITIN

Hydrolipodystrophy treatment

Acts as a precursor to the transport of essential fatty acids for their oxidation as an energy source. For use in hydrolipodystrophy treatment.

PROFESSIONAL USE

INNO-TDS

DRAINING PPC

Localized adiposity treatment

The purified lecithin, based in phosphatidilcholine, eliminates the fat deposits by increasing the permeability of the adipocyte membrane.

PROFESSIONAL USE

INNO-TDS

CYNARA

Anticellulite treatment

For use in hydrolipodystrophy treatment. Involved in the synthesis of the coenzymes NADP-NAD.

PROFESSIONAL USE

INNO-TDS

SILICIUM

Restorative treatment

Hidrolipodystrophy treatment and firming effect. Product specially formulated to reconstruct the elastic fibers.

INNO-EXFO®

Controlled Chemical Microexfoliation

INNO-EXFO offers a comprehensive treatment system composed of chemical peels with different acid strengths, designed to produce various degrees of exfoliation based on individual needs.

Our aesthetic treatments employ chemical substances which react with the upper-mid layers of the skin, causing a controlled damage at various levels and hence, both superficial and deep stimulus for dermal structure renewal.

INNO-EXFO is capable to improve skin appearance, minimize aging signs, provide radiance to skin, reduce hyperpigmentations and treat skin disorders

INNO-EXFO

AGE CONTROL

Skin exfoliation treatment

AHA's peel acid combination for professional use. Facial rejuvenation, skin exfoliation, oily skin and ichtyosis treatment.

PROFESSIONAL USE

INNO-EXFO

SKIN RECOVERY

Skin imperfections treatment

α + β peel for professional use, to improve mild photoageing, comedogenic acne and also for oily skin or open pores.

PROFESSIONAL USE

INNO-EXFO

LIGHTENING

Comprehensive antiaging therapy

Vitamin A peel for professional treatment. Indicated for strong photoaging, light pigmentation improvement, dyschromias prevention and inflammatory acne treatment.

PROFESSIONAL USE

INNO-EXFO

BIO C

Maintenance and preventing treatment

PHA + Pure Vitamin C professional treatment. Indicated for soft damaged skin, uneven color and fragile skin, improving texture, tone and quality of the skin.

PROFESSIONAL USE

INNO-EXFO

TIME RELEASE

Melanin disorders treatment

4 steps professional treatment. Specifically indicated for skin blemishes improvement in condition of melanin pigmentation and dark spots.

PROFESSIONAL USE

INNO-EXFO

BRIGHT

Moderate to severe skin conditions treatment

TCA+ β peel for professional treatment of moderate to severe skin conditions as wrinkles, sun damage and acne scarring.

PROFESSIONAL USE

INNO-EXFO

SKIN BOOSTER

Skin enhancer treatment

Balancing Mandelic Acid peel for professional treatment that produces an epidermal surface peeling for homogenizing the color and brightness of skin.

PROFESSIONAL USE

INNO-EXFO

AGE CONTROL 24H CREAM

Homecare 24H skin rejuvenation

Indicated for aged skin imperfections and wrinkles. Activation of cellular renewal increasing the production of elastic fibers and providing a rejuvenated skin.

INNO-EXFO

SKIN RECOVERY 24H CREAM

Homecare 24H skin recovery

Indicated to regenerate the skin in conditions of acne scars and stretch marks. Provides brighter and more elastic skin, reduction of open pores and regulation of sebum secretion.

INNO-EXFO

LIGHTENING 24H CREAM

Homecare 24H skin lightening

Indicated for moderate skin conditions as sun damage or photoaged skin. Melanin synthesis inhibition just like mild pigmentations clarifying.

INNO-EXFO

BIO C 24H CREAM

Homecare 24H
premature aging

Powerful free radical scavenger to prevent mild aging skin conditions. Softens and eliminates signs of premature ageing.

INNO-EXFO

BRIGHT 24H CREAM

Homecare 24H moderate to
severe skin conditions

Indicated to improve established photodamage wrinkles and sun elastosis. Homogenizes skin color.

INNO-EXFO

NEUTRALIZER

Acids neutralization

Slight alkaline solution, especially suitable for blocking the reaction of organic acids on the skin.

PROFESSIONAL USE

INNO-EXFO

TIME RELEASE 24H CREAM

Homecare 24H skin blemishes

Strong depigmenting product indicated to clarify skin blemishes. Maintenance and preventive treatment outcomes of early aging spots and sun damage.

INNO-EXFO

SKIN BOOSTER 24H CREAM

Homecare 24H radiance
enhancer and luminosity
balancer

Product indicated to improve environmental damaged skin. Noticeable skin radiance enhancement with better texture and tone.

INNO-EXFO

REFRESH MASK

Skin emollient after
professional treatments

Its composition is based on refreshing and regenerating ingredients which act on damaged skin, helping epidermis restructuration and soothing irritation.

PROFESSIONAL USE

A black and white close-up photograph of a woman's face, focusing on her eyes and nose. She has a slight smile and is looking towards the camera. The image is used as a background for the text overlay.

INNO-ROLLER® Microneedling Therapy

INNO-ROLLER products are intended to be applied by roller or different transdermic delivery technique machinery. This is an innovative technique which uses an instrument through microneedles that produces a stimulation of cell renewal. It also creates channels which allow the active ingredients to penetrate sufficiently to reach the target cells. The **INNO-ROLLER** solutions have a unique combination of active ingredients which act specifically on the condition being treated.

INNO-ROLLER creates more than 10.000 channels within 3-5 minutes, which produces microperforations on the skin surface, stimulates the natural wound healing of the dermis by inducing the production of new collagen.

INNO-ROLLER

HYAL

Facial rejuvenation treatment

Fills the space between the collagen fibers, forming a polymeric network which gives structure to the skin.

PROFESSIONAL USE

INNO-ROLLER

HAIR REVIVAL

Hair loss treatment

The active ingredients of the product help the hair micro-circulation and inhibit the 5-alpha-reductase, an enzyme responsible for hair loss.

PROFESSIONAL USE

INNO-ROLLER

SNAP 6-7-8

Deep facial lines and wrinkles treatment

Reduces the depth of facial lines and /or wrinkles. It combines anti-aging properties of the amino peptide with moisturizing properties of hyaluronic acid.

PROFESSIONAL USE

INNO-ROLLER

DEPITACH

Hyperpigmentation treatment

It acts at a range of levels, regulating the skin hyperpigmentation process. It also reduces expression lines and superficial wrinkles.

PROFESSIONAL USE

INNO-ROLLER

RECOVERY

Mild or moderate acne treatment

Improves the appearance of the skin with mild or moderate acne. Typical scars associated with acne are clarified. Normalizes the sebaceous secretion.

PROFESSIONAL USE

INNO-ROLLER

CAVIAR DETOX

Extreme hydration treatment

Purified Caviar and Salmon extract provide extreme moisture to the skin as well as soothing out expression lines and/or wrinkles.

PROFESSIONAL USE

INNO-CAPS®

In&Out
Nutricosmetics

Nutri-cosmetic products with in and out function. They act on the nutrition of the cells and tissues resulting in an integral treatment from the IN, which helps to obtain effective results. Acting from the inside the **INNO-CAPS** products reach the skin, correcting signs of aging, preventing hair loss and fighting against fat deposits in general throughout the body.

They provide “beauty from the inside” which is vital for the improvement of appearance and beauty. The difference between nutricosmetics and topical products is the fact that they work from the inside reaching the whole organism, whereas topical treatments only reach a specific, localized area.

INNO-CAPS

AGE CONTROL

Anti ageing supplement

Hyaluronic acid and EPA/DHA (omega 3) and GLA (omega 6) fatty acid based food supplement. For use in skin aging processes.

INNO-CAPS

REDUCER

Fat reduction supplement

Phosphatidylcholine and L-Carnitine based food supplement which stimulates the correct absorption, transport and mobilization of fats.

INNO-CAPS

HAIR

Anti hair loss supplement

Composed of active ingredients specifically indicated to slow down and improve the hair loss. It increases the hair volume and rejuvenates the hair follicle.

INNO-DERMA®

Advanced 24/7
Dermocosmetics

INNO-DERMA products line is based on formulas designed to provide specific solutions for aesthetic problems.

The rigorous research which leads us to select latest generation ingredients and create unbeatable combinations to achieve solutions for the different symptoms or signs appearing on our skin over the years.

A multidiscipline group made up of: dermatologists, pharmacists, aesthetic doctors, etc., develop our products supported by science and our own experience, carrying out rigorous scientific research, which seeks the best ingredients for each indication.

Our exclusive formulas contain those ingredients in the right concentrations to achieve optimum results when treating the different symptoms of aging, likewise to maintain or improve results achieved with professional treatments

INNO-DERMA

SOFT CLEANSER

Gentle cleansing

Gentle facial cleanser for daily use, especially suitable for sensitive skins.

INNO-DERMA

SKIN PREP WIPES

Skin degreasing

Powerful skin degreaser.

INNO-DERMA

DEEP CLEANSER

Intensive cleansing

Facial cleanser suitable for oily and/or seborrheic skins.

INNO-DERMA

SUNBLOCK UVP 50+ UVB/UVA

Extreme skin protection and regeneration

Cell Regeneration and DNA protection in the highest extreme ultraviolet protection cream.

INNO-DERMA

SUNBLOCK UVP 50+ UVB/UVA OILY SKIN

Extreme skin protection and regeneration for oily skin

Cell Regeneration and DNA protection in the highest extreme ultraviolet protection light emulsion. Suitable for oily skin.

INNO-DERMA

COVERAGE UVP 50+

Extreme cell protection
and regeneration

Cell protection in a matt
finish blemish cover-up with
extreme ultraviolet protection.

INNO-DERMA

LIGHT MOISTURISER

High moisturizer and
antioxidant therapy
for oily skin

Highly moisturizer and free
radical scavenger for skin
hydration balance. Specially
indicated for oily skin.

INNO-DERMA

MOISTURISING CREAM

High moisturizer and
antioxidant therapy

Powerful moisturizer and free
radical scavenger product
for dry and/or mature skin
which regulates and maintain
epidermal hydration levels.

INNO-DERMA

SKIN REPAIR

Skin shooting and relieving

Skin repair product indicated
for protecting, soothing and
recovery skin after aesthetic
treatments involving side
effects such as irritated
skin, edemas, erythema...

INNO-DERMA

BIO C SERUM

Focused first aging
signs treatment

Intensive serum treatment
in maximum concentrations
of pure Vitamin C.

INNO-DERMA

EYE CREAM

Global eye contour treatment

Specific treatment of puffiness, dark circles and superficial wrinkles in the eye contour area.

INNO-DERMA

FIRMING CREAM

Firming treatment

Firming treatment for corporal flaccidity that gives sagging body skin.

Also available in 500ml upon request.

INNO-DERMA

LYPOLITIC CREAM

Lypolitic treatment

Indicated in the treatment of accumulation of fat and/or liquid retention known as cellulite.

Also available in 500ml upon request.

INNO-DERMA

REDUCER CREAM

Slimming treatment

Acts efficiently against localized adiposity reducing fat deposits. Prevents and maintains lypolitic treatments.

Also available in 500ml upon request.

INNO-DERMA

HOT & SLIM

Cellulite treatment coadjuvant

Thermoactive solution for cosmetic cellulite treatment.

INNO-DERMA

SCRUB

Exfoliating therapy

Skin body and face exfoliator.

INNO-DERMA

BODY MOISTURISING LOTION

Body hydration balance

Powerful hygroscopic cream and intensive body moisturizing for all skin types.

INNO-DERMA

BODY LIGHTENING

Body hyperpigmentations treatment

Specific product to treat body spots with a combination of actives which reduces melanogenesis process.

INNO-TECH®

Medical-Aesthetic Technology

INNO-TECH is a new and innovative concept which includes a suite of latest technology devices to treat aesthetic problems in a non invasive way.

This technology has been developed with the aim of treating skin or metabolic disorders, within a selective, innovative and noninvasive procedure.

INNO-TECH covers equipment for facial and body treatments which have been proved to have visible results.

INNOAESTHETICS offers the best Aesthetic Devices to offer their patients the best treatments achieving the perfect combination of safety and excellent results.

CRYOSLIM

Fat reduction treatment

New technology that results in localized fat reduction within a selective and noninvasive procedure. Combine vacuum action to capture the subcutaneous tissue and selective cryotechnology to cool it.
